

## Italian Word List for Notary and Exile Inheritance Records

Compiled by Boyd Cardon and Ronald F. Malan

NOTE: Some terms have different connotations now than they had when these records were written. Words followed by /*a* show both the masculine (*o*) and (*a*) endings, indicating the gender of the person the word refers to.

For additional assistance, an Italian–English dictionary is highly recommended. You can often determine the general intent of the word in the notary act by considering the connotations of the dictionary definitions.

<b>abita</b> – lives, resides	<b>coniugi</b> – married; husband and wife
